ThirdEye Decoded   THIRDEYE

AI AGENTS THAT ACT, VISION THAT COUNTS, AI FOR ROI

KEY HIGHLIGHTS ON THIS EDITION

01 AI AGENTS THAT GO BEYOND CHAT

Our custom AI agents are powered by agentic AI architectures and LLMs to autonomously complete tasks, optimize workflows, and make real-time decisions, already deployed across 12+ enterprise functions.

02 ACCURATE OBJECT COUNTING AT SCALE

From electronics to FMCG, our computer vision-based counting system is helping manufacturers eliminate human error, speed up QA, and scale efficiently, using YOLOv8, TensorFlow, and real-time edge AI.

03 EXPLORE OUR AI DEMO LIBRARY

See these solutions live in action. Our AI Demo Library hosts enterprise-grade, ready-to-deploy AI solutions tailored for real-world use cases. Experience, interact, and request a custom demo for your workflows.

THIRDEYE

AGENTIC AI, THE THIRDEYE WAY

Where AI Not Only Talks, But Execute Tasks Autonomously with Minimum to No Human Interventions

At ThirdEye Data, we don't build bots, we build AI agents that think, decide, and act.

Our agentic AI solutions go far beyond answering questions. These intelligent systems understand enterprise workflows, interact with internal tools, and perform real tasks autonomously, just like your best employees, only faster and at scale.

👉.   **Built With: Agentic AI architectures, OpenAI's GPT-4, Microsoft Copilot Studio, Azure.**

👉   **Already Deployed For 12+ Use Cases For Domains Like: HR, IT, Warehousing, Customer Support, Finance.**

THIRDEYE

# AI-BASED OBJECT COUNTING AT 99% ACCURACY

Your Operation Floor's Smartest Pair of Eyes

If you're in manufacturing, electronics, FMCG, or logistics, you know the cost of manual counting errors.

Our AI-based Object Counting Solution uses YOLOv8, TensorFlow, and Edge AI to deliver:

- 99%+ accurate object counting in real time
- Instant detection of defects or missing parts
- Seamless API-based integration with MES & ERP systems
- Adaptability across lighting, angles, and component types

Introducing
THIRDEYE'S DEMO LIBRARY

Our exclusive AI Demo Library is your gateway to enterprise-grade, prebuilt AI solutions across industries. Browse real-world AI systems we've built, see them in action, and request customized demos tailored to your workflows and datasets.

✅ Interact with the AI models to see the results, do not just play around concepts.

✅ Explore state-of-the-art AI solutions backed by computer vision, deep learning and LLMs.

✅ Fast-track your AI journey with proven building blocks, deployed and trusted by leading enterprises.
